#### A. Administrative Briefing

1. The Pre-Bid Conference for the re-bidding of Procurement of Tools and Dies for M855 Bullet Assembly with an ABC amounting to Php1,400,000.00 was held on 03 July 2019, 10:00 A.M. at the Government Arsenal, DND Conference Room, Camp General Antonio Luna, Lamao, Limay, Bataan. The Chairperson of the Bids and Awards Committee presided over the conference.
2. Three (3) prospective bidders, namely; Springtech Industrial Supply, NSB Engineering Design and Fabrication and Techline, Inc. attended the conference.
3. Mr. Patague, TWG III Legal Officer, presented the briefing on the bidding procedures. After which, the bidders were given the opportunity to raise their concerns, to wit:

## B. Issues and Concerns

### 4. Steel Inserting Punch (Station #9)

Ms. Francisco of NSB Engineering noticed that the material to be used for this item is Caldie, per Dwg. No. AM855T2-09a, and not M2 which was used on previous procurement. Engr. Laviña responded that the material was modified during the updating of the drawings. C, BAC informed the bidders that they may submit an equivalent offer for the type of material during the submission and opening of bids, subject to evaluation by the TWG.

5. Mr. Patague asked the bidders if there are concerns on the delivery period. To this, attendees were all amenable with the schedule. As to other concerns, Mr. Bernardo of Techline responded that they have no more question since they are clarified that the equivalent material for tools and dies may be offered with literature for evaluation as stated in the Technical Specifications of the Bidding Document.

6. C, BAC reminded the prospective bidders that the documents to be submitted should be properly tabbed and that they must be very cautious on the computation of their bids.

7. Having no other matters to discuss, C, BAC adjourned the meeting at 11:25 A.M.
